CURRENT PROJECTS

I am currently in production on a feature-length documentary, *Enongo*. This biographical film follows the life of underground rapper/producer/Ph.D. Enongo-Lumumba-Kasongo (better known by her stage persona, “Sammus”). The film uses a combination of cinéma vérité technique, interview, and original hand-drawn animation by ten Black women animators to tell Enongo’s story of survival and perseverance.

To date, I have raised \$50,000 for the film’s budget through backers in two successful Indiegogo crowdfunding campaigns, one for initial production costs, and the second for animation. Renowned animation publications including *Animation Magazine* and *Animation Scoop* have written about the project while in production. Anticipated completion for *Enongo* is in 2025.

I am also serving as director, producer, writer, and editor for a feature-length, historical documentary, *Animation Mavericks*, funded by Inanimate, LLC. The project is currently in post-production.
